- Pitched an idea for a web app, DealHuntr and completed the project in 2 weeks in a team of 3

Code Institute

Code Institute, Full Stack Developer Certificate (FDCC)

Online

05/2023 - 05/2023

- Full Stack Developer Certificate 5 days challenge of HTML, CSS, JavaScript

Trakya University

International Relations

Turkey

09/2012 - 06/2018

- Bachelor's Degree

Full Stack Projects

WorkTree

github.com/ozgekuzhan/worktree

5-day sprint project

Designed and delivered in a focused 5 day sprint by a team of three, WorkTree is an innovative platform that streamlines the process of reserving office and coworking spaces. Leveraging **Hotwire (Turbo + Stimulus)** and **Bootstrap 5**, I developed a highly responsive and user-friendly frontend that enables real-time updates and smooth navigation without heavy JavaScript frameworks. The backend, powered by **Ruby on Rails** and **PostgreSQL**, provides robust RESTful APIs for secure user authentication (via **Devise**) and efficient reservation management. Containerized with **Docker** and deployed on **Heroku**, the system is built for scalability and reliability, supporting seamless booking experiences for modern workplaces.

Full Stack Projects

DealHuntr

github.com/ozgekuzhan/dealhuntr

2-week team project

Developed in a team of 3 over 2 weeks, DealHuntr is a web application designed to aggregate and display real-time product deals from multiple sources. Focused on building a responsive and interactive frontend using **Hotwire (Turbo + Stimulus)**, **Bootstrap 5**, and **SCSS** to deliver seamless user experience. Implemented clean UI components, mobile-first design, and consistent styling with **Simple Form** and **Font Awesome**. Collaborated closely on backend RESTful APIs built with **Ruby on Rails**, utilizing **PostgreSQL** for data storage and **SQL** for efficient querying. The application was containerized with **Docker** and deployed on **Heroku** for scalable production use.

Experience

Royal Flora Holland

Aalsmeer

Logistic Employee

09/2023 - 04/2024

- Participated in logistic operations in the Netherlands, ensuring timely and accurate product distribution
- Developed attention to detail and organizational skills in a fast-paced environment

Independent Projects

Remote

Independent Software Projects

07/2023 - 01/2025

- Developed various small-scale websites (HTML, CSS, JavaScript)
- Provided support in the development of a software project
- Continuously learned and adapted to new technologies
- Contributed to UI design and development projects using Figma, improving user experience and interface consistency

Wiineed Software
