OZGE KUZHAN

Full Stack Developer

ozgekuzhan@gmail.com • https://www.linkedin.com/in/ozgekuzhan • www.github.com/ozgekuzhan • Amsterdam
https://www.ozgekuzhan.com

Summary

Full stack developer based in Amsterdam, building and launching websites for clients in the Netherlands, Canada and Turkey. Works with JavaScript, React, Node.js/Express, Ruby on Rails and PostgreSQL, and completed the Le Wagon Amsterdam full stack bootcamp in 2025. Before moving into development, co-founded Wiineed Software and, as Product Owner, took a B2B SaaS platform to around 20% market share in Istanbul, so understands both the business side and the code. Comfortable in Agile teams, from user stories through to deployment. No sponsorship required: holds a valid Dutch work permit.

Technical Skills

Frontend: JavaScript · React · HTML5 · CSS3 · SCSS · Vue.js · Bootstrap · Responsive Design · DOM Manipulation

Backend: Ruby · Ruby on Rails · Node.js · Express · Python · RESTful API · CRUD Operations · OOP · MVC Architecture · JSON

Database: SQL · PostgreSQL · Database Design

DevOps & Tools: Git · GitHub · Docker · Heroku · Copilot · Claude Code · OpenAI API · Agile/Scrum · JIRA · Confluence

Design & Collaboration: Figma · UI/UX Design · Wireframing

Experience

Freelance Web Developer — Amsterdam, Netherlands
Self-employed (ZZP) — 07/2023 - Present

- Design, build and launch websites for small businesses in the Netherlands, Canada and Turkey, from first requirements to go-live.
- Translate client needs into a clear scope and delivery plan, managing each project end to end.
- Shadewell Blinds (Toronto, Canada): custom HTML/CSS/JavaScript website with a Node.js/Express backend and Formspree form integration.
- mitsos.nl (Netherlands): building the company website, currently in final stage before launch.
- Güneş Hafriyat and several other small businesses in Turkey: company websites built and delivered.
- Technologies: HTML, CSS, JavaScript, Node.js, Express, Git.

Wiineed Software — Istanbul, Turkey
Co-founder & Product Owner — 07/2020 - 03/2023

- Owned the product vision and roadmap for a B2B SaaS platform that reached around 20% market share in Istanbul.
- Gathered and translated customer requirements into product features and user stories.
- Worked closely with developers to align business needs with technical implementation.
- Prioritized backlog and supported Agile delivery processes.
- Presented product strategy and roadmap to angel investors and stakeholders.
- Took part in investor rounds for a second product, preparing the pitch, business plan and growth strategy.

Full Stack Projects

DealHuntr
github.com/ozgekuzhan/dealhuntr | 2-week Le Wagon team project (team of 3)

Collects weekly deals from Dutch supermarkets in one place, with search, favourites and a shopping list.

- App scrapes Albert Heijn and Jumbo deals automatically with scheduled background jobs (Watir, Nokogiri, Solid Queue).
- Search works in English and Dutch: queries are translated with the DeepL API and matched with full-text search (pg_search).
- My part: built the home page, search results, related deals, favourites, shopping list and dashboard views, and most of the styling.
- Technologies: Ruby on Rails, PostgreSQL, Hotwire (Turbo, Stimulus), Bootstrap 5, SCSS, Devise, Pundit, Docker.

WorkTree
github.com/ozgekuzhan/worktree | 5-day Le Wagon sprint project (team of 3)

Booking platform for office and coworking spaces, with separate owner and renter roles.

- Owners list spaces with photos, hourly and daily prices and capacity; renters send booking requests for chosen dates.
- My part: built the role-based dashboard and the booking approval flow, where owners accept or decline requests (pending, accepted, declined).
- Also built space deletion and owner-only actions, and worked on the booking and space models and routes.
- Technologies: Ruby on Rails, PostgreSQL, Hotwire, Bootstrap 5, Devise, Active Storage with Cloudinary, Docker.

Additional Experience

Master Servis Facility Management — Istanbul, Turkey
Purchasing & Operations Manager — 05/2019 - 06/2020

- Led day-to-day operations for a workforce of 2,000 personnel, coordinating teams across multiple client sites.
- Analyzed and optimized end-to-end purchasing processes, reducing costs and removing workflow bottlenecks.
- Conducted site visits and quality inspections, turning feedback from clients and on-site teams into process improvements.
- Acted as the main point of contact between clients, field teams and management, balancing priorities and expectations.
- Prepared bid documents and took part in tenders for new facility management contracts.

British American Tobacco — Istanbul, Turkey
Trade Marketing Representative — 01/2016 - 01/2017

- Executed trade marketing strategies in the field, turning brand plans into store-level activations.
- Analyzed customer and retailer demand and shared insights with the sales team to shape priorities.
- Ran promotional campaigns and field activities to increase brand awareness and visibility.

Mystaff Human Resources — Istanbul, Turkey
Sales Representative — 08/2013 - 12/2015, 01/2017 - 03/2019

- Grew a B2B customer portfolio and met sales targets through consistent communication with existing and potential clients.

Product & Business Skills

Product Roadmapping · User Stories · Backlog Prioritization · Requirements Gathering · Stakeholder Management · Agile/Scrum · Marketing Strategy · Purchasing & Operations · Financial Planning · Team Leadership
